# 16ᵗʰ Old World Conference on Phonology

Verona, 16-18 January 2019

OCP16
http://sites.hss.univr.it/ocp

16-18 January 2019

Address
Aula 1
Via dell'Università 4
37129 Verona (VR)

Organizing Committee
Birgit Alber
Eirini Apostolopoulou
Joachim Kokkelmans
Barbara Vogt
Marc van Oostendorp (advisor)

Registration opens on Wednesday, 16/01/2019 at 8:30 AM

WEDNESDAY, 16/01/2019

9:00-9:30	**Opening**
9:30-10:30	**Invited speaker: Ulrike Domahs** Experimental evidence for prosodic word structures Chair: Birgit Alber
10:30-11:30	**Session 1** Chair: Christian Uffmann
10:30-11:00	**Karolina Bros, Martin Meyer & Volker Dellwo** Default and exceptional stress processing in Spanish as a testing ground for generative versus exemplar-based phonology models: evidence from ERPs
11:00-11:30	**Geoff Schwartz** Fortis stops in voicing languages - evidence from Polish and Polish-accented English
11:30-12:00	**Coffee break** (provided)
12:00-13:00	**Session 2** Chair: Jochen Trommer
12:00-12:30	**Hanbyul Song & James White** Paradigm uniformity inhibits regularization during phonological learning
12:30-13:00	**Alexander Martin, Adriana Guevara-Rukoz, Thomas Schatz & Sharon Peperkamp** No learning bias favoring phonetically grounded rules? Revisiting vowel harmony
13:00-14:30	**Lunch break** (not provided)
14:30-16:00	**Session 3** Chair: Ruben van de Vijver
14:30-15:00	**Vighnesh Subramaniam & Adam Albright** Modeling typological frequency with a grammatical learner
15:00-15:30	**Andrei Munteanu** Homophony Avoidance: An Experimental Approach
15:30-16:00	**Tsung-Ying Chen** On the Analytic Bias toward Phonetically Driven Tonal Phonotactics
16:00-16:30	**Coffee break** (provided)
16:30-18:00	**Session 4** Chair: Peter Rebrus
16:30-17:00	**Rachel Walker & Yifan Yang** Combinative markedness in three-consonant clusters
17:00-17:3-	**Olga Urek** Variable syllabification of word-medial sC clusters and palatalization in Standard Latvian
17:30-18:00	**Bartlomiej Czaplicki** Measuring phonological naturalness: Polish consonant mutations
18:00	**Closing**

THURSDAY, 17/01/2019

9:30-11:00	**Session 5** Chair: Edoardo Cavirani
9:30-10:00	**Eva Zimmermann** Faded Copies: Reduplication as Sharing of Activity
10:00-10:30	**Irene Amato** Gorgia and Raddoppiamento Fonosintattico: When strength matters
10:30-11:00	**Hyunjung Lee** Born To Be Gradient: Predicting exceptions of Compound Tensing in Korean
11:00-11:30	**Coffee break** (provided)
11:30-13:00	**Session 6** Chair: Markus Pöchtrager
11:30-12:00	**Jochen Trommer** A Harmonic Layer Account of Levantine Arabic Syncope
12:00-12:30	**Ezer Rasin** Feeding Duke of York derivations in Arabic and their architectural consequences
12:30-13:00	**Business meeting**
13:00-14:30	**Lunch break** (not provided)
14:30-15:30	**Session 7** Chair: Aaron Kaplan
14:30-15:00	**Hyunjung Lee & Daniel Gleim** The Short Life Span of Laryngeal Sonorants in Korean
15:00-15:30	**Nazarre Merchant** Distance from the Edge: Using Border Points to Construct Topologies
15:30-16:00	**Coffee break** (provided)
16:00-18:00	**Poster session***
18:00-19:00	**Invited speaker: William Bennett** When 'better coverage' isn't enough: comparing theories of agreement & correspondence Presentation: Joachim Kokkelmans, Chair: Marc van Oostendorp
19:00	**Closing**
20:00	**Conference dinner**

FRIDAY, 19/01/2019

9:30-11:00	**Session 8** Chair: Eva Zimmermann
9:30-10:00	**Edoardo Cavirani & Silke Hamann** The phonological perception of voicing assimilation in Emilian dialects
10:00-10:30	**Markus Alexander Pöchtrager** Tense? (Re)lax! (A new formalisation for the tense/lax contrast)
10:30-11:00	**Christian Uffmann** Evenk Management
11:00-11:30	**Coffee break** (provided)
11:30-13:00	**Session 9** Chair: Rachel Walker
11:30-12:00	**Hui-Chuan Huang** Glide Strengthening in Atayal: Sonority Dispersion and Similarity Avoidance
12:00-12:30	**Aaron Kaplan** Noisy HG Models of Eastern Andalusian Harmony
12:30-13:00	**Anton Kukhto, Alexander Piperski & Sergey Knyazev** On the interaction of vowel reduction and stress clash in Russian nominal compounds
13:00-14:30	**Lunch break** (not provided)
14:30-16:00	**Session 10** Chair: Adam Albright
14:30-15:00	**Donald Alasdair Morrison** Accent and metrical structure in Scottish Gaelic
15:00-15:30	**Janne Lorenzen, Marie Christin Himmel & Baris Kabak** Structural concomitants of final vs. non-final stress reveal how two separate stress systems evolved in Turkish: Evidence from a database study
15:30-16:00	**Seunghun Lee & Reiko Aso** Building a heavy syllable with strong aspiration in Hateruma Yaeyama
16:00-16:30	**Coffee break** (provided)
16:30-17:30	**Invited speaker: Martin Krämer** Interacting sonority hierarchies Chair: Barbara Vogt
17:30	**Closing and Farewell**

Posters

Malgorzata Cavar & Steven M. Lulich
The role of the tongue root in palatalization: the softness distinction in Russian re-interpreted

Karolina Drabikowska
Labials, velars and velarised consonants - the element function revisited

Sara Mackenzie
Allophony, neutralization, and structure preservation in Stratal OT

Giorgos Markopoulos
When Distributed Morphology meets Gradient Harmonic Grammar: A new approach to Greek stem allomorphy

Giovanna Marotta & Martina Turconi
Speech and music rhythm. A pilot study on sung language

Mikolaj Nkollo
Towards phrasal attachment of European Portuguese proclitics: An empirical diachronic inquiry into syntax-phonology interface

Peter Rebrus, Péter Szigetvári & Miklós Törkenczy
Transparency and lexical strata

Marko Simonovic
Only slightly crazy! Phonologically restricted root allomorphy in Dutch, Slovenian and Serbo-Croatian

Bethany Sturman
Lenition, learnability, and the P-map: An artificial grammar learning experiment

İpek Pınar Uzun & Özgür Aydın
A Pupillometric Study of Prosody-Syntax Interaction in Turkish

Ruben van de Vijver
Phonetic detail in phonological representations: Evidence from Hungarian

Ewelina Wojtkowiak & Geoff Schwartz
VOT and the shape of the Prosodic Hierarchy in Polish
